

Came and began slapping me, his friends told me that if I fight him he will call the parents but me I told them that since that is what you always do all of you me I will do something - different from you - One lady girl came to me and asked me to be a friend with her - I told her no problem we will when the boy came to me he again tried to hit me I told him you are going to be prisoned now, his friends told him to stop playing with me he refused, he beat me up and I ended up bleeding that why my parents came and prisoned that boy since that day Sam respected at school even teachers don't beat me. I felt very happy when I talk to pupils they don't allow what I say. There for in my life I conclude that what I did to the boy who disturbed me from since that day we are true friends with him and other people who were like him had got a lesson from what I did that day they all said that you have done what we have never done at this school.
