

Muammar Gaddafi

Yemi

Omatuli ~~The~~ My essay is about how the information in this article differ from what i have heard, seen and read about Libya and Gaddafi. The article i have read makes ~~Gaddafi~~ Gaddafi sound like all that he wants is what is best for Africa but what i have read, ~~and~~ heard and seen makes Gaddafi

Question 1 Sound like a bad person who wants to destroy Africa for his own selfish needs but that is not the ~~case~~ case. The Article i read gives three reasons why europe does not want Gaddafi. The first reason is that Gaddafi suggested that ~~europe~~ Africa should have it's own Sattelites instead of everytime someone in Africa wants to make a call to someone else in another part of africa they would ~~use~~ have to connect to ~~europe~~ the europe satellite ~~which~~ ~~is~~ before they could reach the person they are trying to contact in the other part of Africa. This process ~~cost~~ ~~of~~ would be costing Africa ~~five~~ five hundred million dollars a year so when Gaddafi found out that it would only cost Africa four hundred million dollars to have their own ~~sattelite~~ Sattelite and they would only have to pay money ~~is~~ once because it wasn't a continuous payment, he offered to pay three hundred million ^{dollars} and ~~asked~~ asked the other countrys in Africa to raise one hundred million dollars. Europe was ~~not~~ obviously not happy about this because they wouldn't be making their five hundred million dollars a year.

The second reason was that Gaddafi didn't want the IMF (International Monetary Funds) to help Africa because instead of helping Africa they were only making the situation worse. ~~So~~ That is why Gaddafi suggested that why don't Africa help ~~its~~ Its Self by creating AMF (Africa Monetary Funds) this way Africa could help ~~itself~~ themselves and not have to agree to the unreasonable demands of the IMF which weren't helping ~~them~~ them but only making the situation worse. When the IMF heard of this it gave them more of a reason to want Gaddafi out because he had just stopped them from making money. The third ~~reason~~ for reason was that ~~the~~ Gaddafi thought the EU is what makes Europe strong because it brings all the countries in the EU together so why ~~doesn't~~ doesn't he create an AU (African Union), but the EU didn't like this idea because if Africa became stronger it wouldn't be less developed, ^{any more} and they wouldn't be able to exploit Africa, ^{to make money} The EU went to the ^{Countries} ~~Countries~~ in North Africa Libya, Tunisia, Morocco and Egypt and said to them why would they want ~~to be~~ ~~they~~ ~~want~~ to join the AU they were light in complexion and nothing like the black people in the other parts of Africa they convinced them that they were practically white therefore making ~~them~~ them better and smarter. The EU convinced the ~~North~~ ~~the~~ Countries of North Africa to create an UMP (Union for the ~~Mediterranean~~ Mediterranean) they also wanted the president of France Sarkozy

to be the ~~new~~ president of the UMP but Gaddafi didn't ~~buy~~ buy into it he thought why would ~~they~~ they put the president of France and a member of the EU as the president of the UMP if not only to spy on them and destroy their plans and because Gaddafi didn't buy into it and make Libya a member of the ~~UMP~~ ^{UMP} the plans ~~to~~ to create an ~~UMP~~ ^{UMP} fell apart which angered Europe even more.

I think Europe makes Gaddafi seem like a bad person because he is the ~~only~~ only major thing stopping them from having control of Africa and if they had ~~control~~ full control of Africa they would be able to exploit Africa even more and ~~making~~ ^{causing} Africa to become poorer. I think the whole campaign ~~for~~ ^{for} the fall of Muammar Gaddafi is for the benefit of Europe because if Gaddafi is gone they will be making more money. The ~~later~~ information in this article is ~~just~~ telling us the ~~real~~ real reason why the west want Gaddafi to fall while what we read, see and hear about Gaddafi is just propaganda to drum up more support for the fall of Gaddafi.
